SMS Based Redemption

What is SMS Based Redemption?

SMS Based Redemption is an instant reward redemption option that allows the credit cardholder to redeem **EDGE REWARD** Points / **EDGE** Miles against the transactions made through eligible Credit Card. These transactions can be done at select merchants or designated merchant categories e.g., travel, retail utilities etc., using the eligible Axis Bank Credit Card.

How does SMS Based Redemption work?

Below are the considerations applicable for SMS based Redemption:

- All transactions made using select Axis Bank Credit Cards with designated partner merchants, will be considered as eligible transactions.
- When an eligible transaction is made, credit cardholder will receive an SMS on his / her registered mobile number with a link to redeem **EDGE REWARD** Points / **EDGE** Miles for the transaction. For eligible transactions credit cardholders will receive an SMS once per day.
- Redemption link is valid for 24 hours post performing the eligible transaction.
- By clicking on the link, cardholder will be redirected to the SMS Based Redemption screen, where they will be able to select the amount up to which they would like to redeem with available **EDGE REWARD** Points / **EDGE** Miles. The cardholder can choose to redeem either a partial amount of the transaction, or the full amount, basis the cardholder's available **EDGE REWARDS** / Miles Balance. The Axis Bank microsite would show the cardholder's available **EDGE REWARD** Points / **EDGE** Miles, transaction amount and equivalent **EDGE REWARD** Points / **EDGE** Miles to be deducted against the amount of transaction.
- Once the redemption amount is selected, cardholder may click on the "Redeem Now" button. Successful redemption pop-up will be visible on mobile screen on completion of redemption journey and Axis Bank **EDGE REWARD** Points / **EDGE** Miles will be debited from the **EDGE REWARDS** Account.

How many redemptions can be done in a day?

The cardholder will receive only one SMS in a day for the eligible transaction done on eligible credit card.
