#### Important Notes:

- Kindly note that the above case studies are only examples and do not in any way create any rights and/obligations. The actual experience of the policy may be different from what is shown above.
- Some benefits are guaranteed, and some benefits are variable with returns based on the future performance of your insurer carrying on life insurance business. If your policy offers guaranteed benefits, then these will be clearly marked "guaranteed" in the illustration tables under this section. If your policy offers variable benefits, then the illustrations in this section will show two different rates of assumed future investment returns. These assumed rates of return are not guaranteed, and they are not the upper or lower limits of what you might get back, as the value of your policy is dependent on a number of factors including future investment performance. The guaranteed and non-guaranteed benefits are applicable only if all due premiums are paid.
- Bonuses are non-guaranteed and are declared at the sole discretion of the Company.
