5. Scope

To take all necessary steps to identify, prevent or manage any conflict of interest and applies to all the employees of Axis Bank.

6. Purpose

The purpose of this Policy will be to:

- a) Identify circumstances which may give rise to conflicts of interest which involve a risk of damage to customers', stakeholder's, or interests of any Axis Entities.
- b) Describe the arrangements which Axis Bank has put in place to forestall or manage such conflicts of interests.

7. Definition

A "Conflict of Interest" occurs when personal interest of any employee of Axis Bank ("Bank") interferes or appears to interfere in any way with the interests of any Axis Entities. Conflict of Interest includes, but is not limited to, an employee who is a party to, or an employee of, or who has a material interest in, any person who is a party to a contract or transaction or proposed contract or proposed transaction within the Axis Entities. It also means any situation that could be expected to impair their ability to render unbiased and objective advice/decision/recommendation or that could reasonably be expected to adversely affect that person's duty to the Axis Entities. Conflict of Interest may arise where an employee places his or her personal interests before the interests of the Axis Entities and where such personal interests unduly influence that employee's business judgements, decisions, or actions. Failure to manage such situations may have serious ethical risks as well as legal and regulatory consequences.

The appearance of a conflict of interest may be just as damaging to reputation of any Axis Entities as a real conflict and may be even more difficult for the individuals involved to discern.

Examples of situations that could involve conflicts of interest include:

- 1) Selling a product that is profitable for the Axis Entities but not appropriate for the customer.
- 2) Ownership, by employees or their family members, of a significant interest in any outside enterprise, which does or seeks to do business with or is a competitor of the Axis Entities.
- 3) Acting as a broker, finder, go-between or otherwise for the benefit of a third party in transactions involving or potentially involving the Axis Entities or its interests.
- 4) Working, in any capacity, for a competitor, customer, supplier or other third party while employed by the Axis Entities.
- 5) Competing with the Axis Entities for the purchase or sale of property, products, services, or other interests.
- 6) Having an interest in a transaction involving the Axis Entities, a competitor, customer, or supplier (other than as an employee, officer or director of the Bank and not including routine investments in publicly traded companies).
- 7) Receiving a loan or guarantee of an obligation as a result of your position with the Bank.
- 8) Receiving a preferential rate of interest/ discounts/ waivers from any customers/suppliers/vendors as a result of your position with the Bank.
- 9) Directing business to a supplier owned or managed by, or which employs, a relative or friend.

Conflicts of interest arising out of personal Investments:

While undertaking personal investments, it should be borne in mind that such investments should not:

- 1) Affect or appear to affect your ability to make unbiased business decisions for the Axis Entities.
- 2) Be contrary to Axis Entities' interests or interest (e.g., using proprietary knowledge obtained through the course of employment to make investments that are not in the best interest of the Axis Entities).
- 3) Be in the businesses of customers, suppliers, or competitors of the Axis Entities, that could cause divided loyalty, or even the appearance of divided loyalty.

Conflicts of interest through outside business activities:

Due to potential conflicts with the Axis Entities, you must obtain approval from competent authorities/Dept. of the Bank before you accept a position as a director of an unaffiliated for-profit company or organization or when you work with a professional organisation/ association outside Axis Entities.

Working with professional organisations/ associations does not typically create a Conflict of Interest where:

- 1) The work is related to the legitimate professional interest and development of the employee and does not interfere with the employee's regular duties.
- 2) Does not use official resources inappropriately (either physical resources or time).
- 3) Does not compete with the work of Axis Entities and is not otherwise contrary to the best interests of Axis Entities.
- 4) Does not violate national, international, or local law.

It may however be mentioned that, while undertaking outside activities, you should not use name, facilities, or relationships of the Axis Entities for personal benefit. Further any employee accepting an appointment, as director of an unaffiliated for-profit company/ organisation must ensure proper treatment of confidential information received from such entity in connection with being a director.

Every employee of Axis Bank has a responsibility to the Axis Entities, its stakeholders and to each other. Although this duty does not prevent them from engaging in personal transactions and investments, it does demand that they avoid situations where a conflict of interest might occur or appear to occur. They are expected to perform their duties in a way that they do not conflict with the interest of the Axis Entities, such as –

- a) **Employment/Outside Employment** - The employees of the Bank are expected to devote their total attention to the business interests of the Axis Entities. They are prohibited from engaging in any activity that interferes with their performance or responsibilities to the Axis Entities or otherwise is in conflict with or prejudicial to the Axis Entities.
- b) **Business Interests** - If any employee considers investing in securities issued by the customer, supplier, or competitor of the Axis Entities, they should ensure that these investments do not compromise their responsibilities to the Axis Entities. Many factors including the size and nature of the investment, their ability to influence the Axis Entities' decisions, their access to confidential information of the

Axis Entities , and the nature of the relationship between the Axis Entities and the customer, supplier or competitor should be considered in determining whether a conflict exists. Additionally, they should disclose to the Axis Entities any interest that they have which may conflict with the business of the Axis Entities.

- c) **Relatives of Employees** – All the employees of the Bank shall annually declare the names of all relatives working in the Axis Entities to the HR Department of the Bank and provide a list of his/her relatives and to the extent the employee is aware of the interests of such relatives in other bodies corporate, firms, HUFs, and other entities. In addition, Senior Management (SVP II & above) shall immediately disclose the names of their close relatives who are employed with business partners of the Axis Entities including Consultants, Vendors, NGOs etc. This information shall also be called for from all new recruits at the time of joining.
- d) As a general rule, employees of the Bank should avoid conducting Axis Entities' business with a relative or any other person or any firm, company, association, HUF in which the relative or other person is associated in any significant role (Relative/Relative Entity) Relatives shall include (as defined in the Companies Act, 2013 and Employment of Relative Policy of the Bank):

 - VI. Spouse of the person referred to in clauses 2 to 5 above.
 - VII. Member of HUF, if any, (not covered in above list)

*** Lineal means an unbroken line of descent from parent to child, vertically extended to at least three generations**

- e) With respect to any sanction or proposals being approved by the Board or a Committee of the Bank, any employee who is directly or indirectly concerned or interested in any such sanction or proposal would disclose the nature of his interest to the relevant Board/Committee where any such sanction or proposal is being discussed. This disclosure can be provided before or during the meeting. Any employee making the disclosure shall recuse himself/herself from attending the meeting for such sanction or proposal unless his/her presence is required by the other directors/members for the purpose of eliciting information and such employee so required to be present would abstain from voting on any such proposal. The decision on presence or recusal of interested persons will rest with the chairman/approving authority of the committee/meeting.

In all other scenarios if any employee proposes to enter into a transaction involving Axis Entities' business, with a Relative / Relative Entity of an employee, where such transaction is unavoidable, then the employee must obtain an approval from the Head Ethics / Chief Ethics Officer of the Bank Any dealings with a Relative / Relative Entity must be conducted in such a way that no preferential treatment is given to that party.

- f) In case of any other transaction or situation giving rise to conflicts of interests, the appropriate authority should after due deliberations decide on its impact.

8. General Guidelines

All employees are required to maintain the highest levels of professional and personal integrity to avoid situations in which an individual's personal interest may conflict or appear to conflict with either the interest of the Axis Entities or that of our stakeholders. Conflict of interest issues may arise in dealings between employees and vendors, employees and customers, employees and counterparties / other entities, employees, and their acquaintances and also employees and relatives. A conflict of interest arises when any dealing with any of the entities named above may appear to be influenced by your relationship with them. Such relationships may impair an objective or impartial assessment of the dealing/transaction and may not, therefore, be in the best interests of the Axis Entities. It may even result in a financial/non-financial gain to the employee, his family member or acquaintance.
