

ECONOMIC CONTRIBUTION

As a banking institution, we are aware that our role in the society goes beyond generating profits for our shareholders and providers of capital. We always strive to play our part in enabling and expediting economic development, one that is both equitable and sustainable.

Direct economic contribution

Economic value generated, distributed and retained

G4-EC3

Employee Benefit Obligations

We provide a comprehensive range of retirement and other benefits to our employees. These include Provident Fund benefits, Gratuity benefits, Compensated Absences and Superannuation Scheme benefits. Appropriate processes, including an actual valuation by independent actuaries, are put in place to manage defined benefit obligations and defined benefit retirement plans.

Indirect economic contribution

We facilitate financial flows and help overall economic activity thrive. Through our products, services, operations and community programmes, we touch myriad sections of society including individuals, businesses and institutions.

- Our Retail Banking business helps individuals achieve their goals and aspirations by providing them banking and financial solutions that meet various lifecycle financial needs.
- We bring millions of underserved sections of society into the ambit of formal banking system through our Financial Inclusion Agenda.
- This enables them to become active participants of the economic growth and thus benefit from it. Financial Literacy is an integral component of our Financial Inclusion Agenda to educate and create awareness on the basics of banking and financial topics.
- These efforts help individuals better understand the opportunities available for them to earn a livelihood, save, grow their wealth, get insured and avail social security benefits.
- We support businesses and institutions in their growth journey through our Corporate Banking solutions. This in turn contributes to overall economic growth and nation building.

- Through our Priority Sector focus, we promote the growth of sectors including MSMEs and Agriculture, which supports millions of jobs and livelihoods. We also have special solutions for emerging businesses and start-ups to promote innovation and entrepreneurship.
- We partner with governments to facilitate delivery of citizen services and social benefit schemes directly to the beneficiaries and in the process, contribute to effective and transparent governance models.

Our community programmes, primarily undertaken through the Axis Bank Foundation, addresses the challenges of creating sustainable livelihoods in some of the poorest districts of the country. The programmes aim to increase the livelihood generation potential of beneficiaries by at least 50% of current existing levels on a sustainable basis.
